A general urgency atul gawande the checklist manifesto 2009 reveals that in a way that can significantly reduce human error in complex fields such as aviation engineering and medicine about the author atul gawande a general urgency at brigham and women's hospital in Boston Massachusetts and a professor of surgery at Harvard Medical School will be writing for the New York Times. He is also the author of better and smarter than the other which was a notable book awarded in 2010. Gawande was named one of the world's 100 most influential thinkers by Time magazine. Introduction progress in human understanding has been increasingly complex and overwhelming. Imagine being treated for a heart attack in the 1950s. I know what you'd have to do. Problems were so basic that you'd be prescribed aspirin and bed rest. Oh and if you wanted to puff on the cigarette during your recovery that was fine. Too fortunate human knowledge has greatly expanded since then. A little as 60 years ago doctors were fairly clueless but treating heart attack whereas today we have numerous methods including blood pressure medication cardiac catheterization open heart surgery. We have a whole host of ways to solve heart problems in the first place from cholesterol lowering drug treatments however the complexity of medicine our basic knowledge base has become a double-edged sword. According to the World Health Organization we have now defined over 13,000 syndromes and injuries. Add to that the thousands of drugs and procedures available to treat them and we see that the one doctor or medical team possibly master all the medical knowledge we have accumulated. This leaves us with a problem of not just that we're struggling to not only remember the right knowledge in the right way. Surgeons and nurses like are under immense pressure to master the medical technology. I guess I'd like to say that at a certain point the number of things needed to perform medical procedures with precision as they are doing them. The multitude of things with the unexpected results and outcomes that occur when dealing with sick people. Clearly a new kind of thinking is needed for us to make use of our vast medical knowledge and avoid potentially fatal human error. Progress in human understanding has been

is christian worship best conceived as a creative spirit fueled experience that any formalized structure necessarily inhibits or are there any biblical prescriptions around for worship that christians were meant to follow in light of recent research from various disciplines including history psychology and new testament studies in defense of christian ritual the case for a biblical pattern of worship argues the latter specifically this book will demonstrate three things first in contrast to the anti ritualism so prevalent in modern churches ritual s indispensable role in providing biblically centered context and content is detailed second contrary to modern opinion a definite pattern of worship is shown to be present both in our earliest new testament documents and the early church finally new

research will reveal that the assumptions about creativity lying at the heart of modern contemporary worship are fundamentally flawed readers will discover that the apostolic teaching embodied in the church's early ritual as expressed in its liturgy was never intended to be outdated or rendered irrelevant in light of current fads it was never meant to be a relic of the ancient past but a structured way of bringing the memoirs of the apostles that Jesus died for sinners to God's people in the here and now
